The Leadership UNK class wrapped up their year with a session based on “Teamwork Strategies”. A highlight for the class was LeAnn Jochum’s presentation about getting to know your team where she utilized the class members’ results from the Gallup StrengthsFinder assessment they each completed before the session. Paul Plinske met with the group and discussed how he builds trust among his team and he suggested “The Speed of Trust” and “The Catalyst Effect” as worthwhile books for the class to read. George Holman from Residence Life joined the group to discuss goal setting. Scott Benson and Jon Watts wrapped up the day by explaining how to negotiate effectively and they assisted the class as they worked through a practice negotiation of their own. This session wrapped up the year for the 2017-2018 Leadership UNK class. After graduation, they are on to planning the sessions for the next class!
