

Student Government

UNK students play a significant role in ensuring that the Kearney experience is something you'll never forget. Here, you will find extraordinary access to shaping the University and its culture through involvement in Student Government. At UNK, our student government is highly involved in all aspects of University governance, and has the administration's attention on a wide range of issues regarding student life, academics, and University policy. The system of checks and balances is key to any effective governing body, and that isn't overlooked by Student Government at UNK. Much like the federal government, our student government is comprised of an executive branch, a legislative branch, and a judicial branch. Each is charged with specific roles and responsibilities, and the students who serve on them take their job in that role seriously. The best part is that these are students you know-- they are your friends, roommates, classmates, study partners, and teammates-- which means that you can depend on them to have your voice heard even if you are not involved in student government yourself.
