Academic and Personal Tips for Thompson Scholars for Spring Break

- The end of the term gets very hectic with academic deadlines and events. Make sure you have your calendar planned so that you do not miss any TSLC expectations or other academic requirements.
- Only four Success Sessions remain AFTER Spring Break. Have you attended the number of sessions required yet? If not, plan accordingly.
- The deadline to request STBF funding for Summer 2019 study abroad experiences is April 1, 2019; if you haven’t done the request form yet, make sure to complete it and submit it by the deadline.
- Use the time out of classes to work ahead on major projects or papers to help you stay in balance for the rest of the semester.
- The end of the term may have a strong impact on your overall course grades, as more assignments, tests, projects, and papers are usually due later in the semester. Continue to revisit your syllabi to look at the points available in your courses and the grade scale used by the instructor.
- When you return from Spring Break, six weeks remain in the semester. While you should give yourself a bit of downtime during break, do not completely disconnect from your academics; if you do, you may find it difficult to get back into the necessary rhythm when you return to classes. The end of the term is the time to be most disciplined and focused.
